

Salford ESOL Advice Service

Do you speak another language and need to improve your English? Learning English can help you get a job, get a better job, get a qualification, be more independent in everyday life or support your children at school. There are many opportunities to learn or just practise English in Salford in adult learning centres, colleges and community organisations. You could also join an informal conversation group. ESOL Advice Service can help you find the right learning opportunity. At an ESOL Advice session, a qualified teacher will check your speaking, listening, reading and writing skills and also find out about your needs and goals. You could be offered a learning opportunity straight away or they will go on a waiting list for an English language course that is right for you. If you have to wait for a place on a course, you will be contacted as soon as the place becomes available. You only need one assessment for any of the ESOL classes in Salford. Contact your local ESOL Advice Service today to arrange an assessment and get help with your English.
